

Figure 1 shows a 2D grid of 115 points in the X-Y plane. The X-axis ranges from -25 to 25 mm, and the Y-axis ranges from -25 to 25 mm. The points are numbered 66 to 115. The grid is approximately 10x10 units, with points numbered in a boustrophedon pattern starting from the top-left (66) and ending at the bottom-right (115).

Figure 1 is a scatter plot showing the spatial distribution of 10320 points in the X-Y plane. The X-axis ranges from -25 to 25 mm, and the Y-axis ranges from -25 to 25 mm. The points are arranged in a grid-like pattern, with labels for every 10th point (e.g., 10320, 10310, 10300, etc.).

Figure 1 shows a 7x8 grid of points numbered 1 to 56. The grid is plotted on a coordinate system with X [mm] on the horizontal axis (ranging from -20 to 20) and Y [mm] on the vertical axis (ranging from -20 to 20). The points are arranged in a regular grid pattern.
